

CDG to Host “Get LEAN” Webinar

CYPRESS, Calif., October 20, 2008 – Continental DataGraphics (CDG), a Boeing Company, announced that it will host an educational webinar event, ***Get Lean: 5 Steps to Reduce Costs, Eliminate Errors and Increase Productivity.***

The webinar will cover various topics focused on applying Lean practices, including:

- Lean Basics – a brief high level review of Lean, its practices and principles
- 5 Essential Steps for Applying Lean in Your Organization
- Lean Success Stories and Case Studies, including:
 - How a company was able to double their production capacity with half the staff
 - How one company was able to realize a \$2,000 cost savings by implementing Lean
 - How one organization was able to cut its process times by over 50%

Some of the world’s most respected companies have embraced Lean and continuous improvement philosophies. This CDG educational webinar is designed to help organizations learn how to “jump start” their Lean journey.

The event will be hosted on **Thursday, November 20th at 11:00 a.m. PST (2:00 p.m. EST).**

There is no charge for CDG’s invited guests to attend the webinar event. To register online, visit the event registration page on the CDG web site at: <http://www.cdgnow.com/getleanwebinar/index.html>.

CDG also offers **Lean Advisory Services** to assist organizations in applying Lean practices to their business environment. To request additional information about Lean services or other CDG solutions, visit www.cdgnow.com.

About CDG

A subsidiary of The Boeing Company, CDG specializes in helping engineering and manufacturing organizations maximize efficiency through **Engineering Design and Engineering Process Support, Engineering Data Conversion, Technical Publications and Document and Content Management** services and solutions. CDG has not only embraced Lean, but lives Lean every day. In its own organization and within customer and partner organizations, CDG has successfully implemented more than 45 business process improvement events in more than 30 different departments over the last three years. Beyond our its internal continuous process improvement efforts, CDG also provides support to Boeing's ongoing "Lean +" initiatives.

For more information, visit the CDG web site at www.cdgnow.com.
