

## **CDG Executive to Deliver Address at Aerospace & Defense Industry Suppliers Conference**

**CYPRESS, Calif., April 29, 2009** – CDG, a Boeing Company, announced that its Vice President of Illustrated Parts Catalog Authoring, Mr. Warren Smith, will be a featured guest speaker at the upcoming *SpeedNews 7th Annual Aerospace & Defense Industry Suppliers Conference*. The event is scheduled for May 4 – 6 at the InterContinental Los Angeles Century City Hotel in Los Angeles.

The conference will include a diverse audience of equipment manufacturers, marketing representatives, analysts and raw material suppliers from the aerospace and defense community. The purpose of the conference is to provide status reports, market forecasts and in-depth analyses on the present and future of the aerospace and defense industry so that attendees can leave with a foundation required to update their business plans.

Mr. Smith's presentation is entitled ***Strategies for Integrated Configuration Management***. The presentation will cover the critical importance of establishing stringent configuration management controls in a complex equipment maintenance environment, and will highlight the direct impact that configuration management can have on safety and efficiency. The presentation will also encompass some of the key lessons learned in the commercial aviation industry related to configuration management, and will include highlights of some of the applications and tools that have been applied to help aircraft and equipment operators streamline and improve their configuration management processes.

Additional information on the *SpeedNews 7th Annual Aerospace & Defense Industry Suppliers Conference* is available at [www.SpeedNews.com](http://www.SpeedNews.com).

### **About CDG**

CDG has more than 40 years of extensive technical data and software development expertise. CDG specializes in managing massive amounts of complex equipment parts data and configuration management information. CDG helps engineering and manufacturing organizations maximize efficiency through **Engineering Design and Engineering Process Support**, **Engineering Data Conversion**, **Technical Publications** and **Advanced Content Management** services and solutions.

CDG's experienced global teams work with customers to develop innovative strategies to effectively manage their engineering and technical data, by applying advanced applications, tools and high quality technical data and engineering support services.

A subsidiary of The Boeing Company, CDG offers its customers a high degree of confidence, backed by a reputation for long-term stability and reliability, stringent security measures, and ISO-certified quality assurance practices.
